## BEAUTIFUL CROW DUCK LAKE CAMP (Manitoba)

Crow Duck is the largest lake in Whiteshell Provincial Park (eastern Manitoba) about 80 miles north of the US border and two hours east of Winnipeg. Since there are no roads to Crow Duck, owner Bill Kolansky will pick us up on Big Whiteshell Lake. From there it's a two-mile boat ride to a private trail that leads to the camp. The two-mile truck ride thru wilderness bush country is a refreshing end to the journey and an

exciting beginning to our fishing adventure. Crow Duck is a remote lake with no roads, no private cabins, and nothing but fantastic fishing and spectacular scenery. "Come join us for a memorable week of fishing in the Canadian Wilderness," invites the Crow Duck staff, "and let us prove to you that we have the BEST lake, BEST Camp, and BEST service of any Lodge in Canada!"

**WALLEYES** Crow Duck Lake has awesome fishing! Walleyes were first stocked in Crow Duck Lake in 1986 and are now a reproducing permanent species. They have done VERY WELL! Expect to catch large numbers of quality fish (average size 20"). The resort claims that it is very common for guests to catch 100+ walleyes per day per boat. Crow Duck Lake's "Catch & Release" walleye designation gives all fisherman the opportunity to experience excellent fishing, as good as can be found in Wilderness Canada. We'll hike on over to Saddle Lake (1.25 m portage) to fill our limits and to fish as conditions warrant. Plan on taking fish home as well as enjoying some tasty shore lunch. Saddle Lake was a gold mine for walleyes in 2013!

**SMALLMOUTH** "If you are after lunker bass, Crow Duck Lake is your dream come true!" says the owner. "Bass fishing is fantastic here, cool or hot weather. Most of our costumers come here for the excellent bass fishing. Expect to catch lots of nice bass and you have an excellent chance of finding a 'Master Angler Award' (18" or more) bass here." The lake has excellent bass habitat with 75 miles of rocky shoreline, underwater rock piles, and many weed beds. Three group members earned Master Angler honors in 2012 & 2013.

**NORTHERN PIKE** Crow Duck pike fishing seems to be on the rise with many "eaters" (3-5 lbs.) caught. Fishing in Saddle Lake is even better for bigger pike with several 30"+ inch pike boated last year. Monster-sized pike (40"+) are known to be lurking in that amazing fishery.
